

False Key the Defense to Create Big Plays in Buck Series

Many defensive coordinators after scouting our tendencies are establishing reads or "keys" for their Linebackers and Secondary. These "keys" allow the defenders to adjust their alignment, determine if it's run or pass, and to know the direction of the play. By studying how our opponents defend our Double Wing we can determine what their "keys" are and use that information against them. Create false keys that can be used to create big plays. Let's look at 3 reads or keys that defenses are using to defend our Double Wing.

1. Wingback Motion
2. Pulling Guards
3. Edge Blocking or Pass Release

-Wingback Motion

We are seeing 2 deep safety defenses rotate with motion adding a safety or corner to run support. An 8th man front on the fly.

We are seeing the outside linebacker chase motion. An automatic blitz.

-Pulling Guards

Inside linebackers read and go with any pulling guard.

Safeties read motion and pulling guard which takes them to the play.

-Edge Blocking/Pass Release

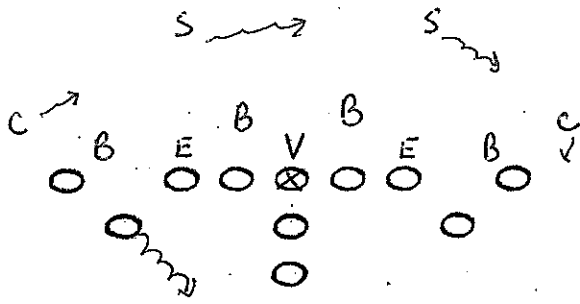

Secondary will read the end or wingback. If there's a down block they attack run. With the play being spilled to them and the linebackers.

If the end or wingback release the secondary will quickly drop to their pass coverage responsibilities.

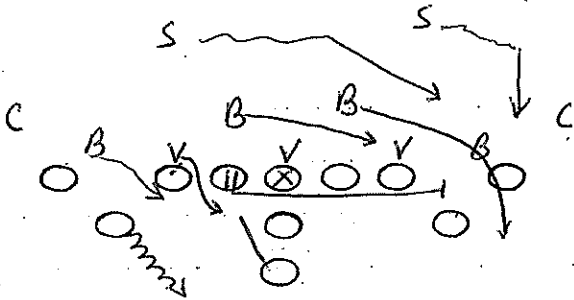

Outside linebacker reads down block by end or wingback. This key may give him the assignment to attack hard and take out lead blocker. Thus, spilling the play to inside linebackers and secondary.

Let's look at some plays in our Buck Series that may create a "big play" by using this information to create a false key for the defense.

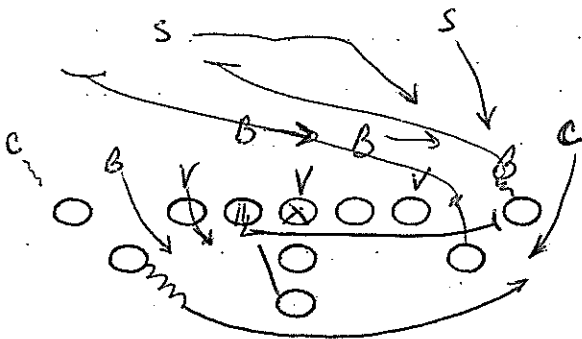

2-29 BUCK ACTION - 18 SUCKER

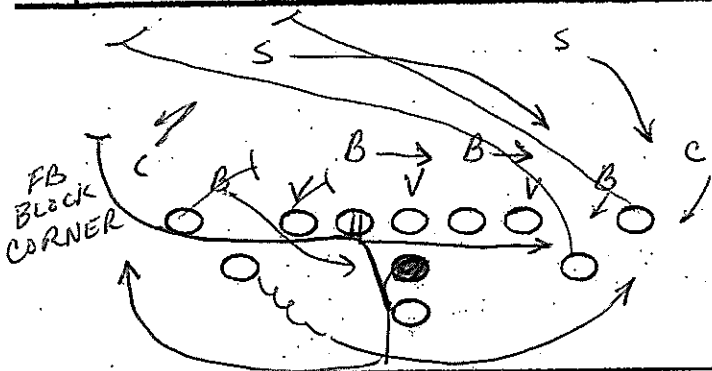

1.) 2-MOTION: "KEY" - SAFETIES ROTATE

2.) PULL LEFT GUARD - "KEY" INSIDE LINEBACKER BELIEVE PULLING GUARD WILL TAKE THEM TO THE PLAY SAFETIES ALSO READ PULLING GUARD "KEY" LEFT DE WILL ALSO CHASE GUARD AS WELL AS LEFT OLB.

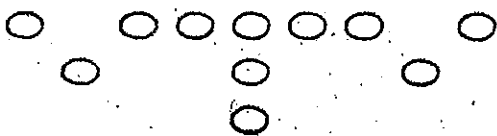

3. OUR RIGHT END AND WINGBACK GIVE A FALSE KEY OF A DOWN BLOCK WHICH CAUSES CORNER AND SAFETIES TO ATTACK RUN ALONG WITH A GREAT FAKE FROM LEFT WINGBACK (2-BACK).

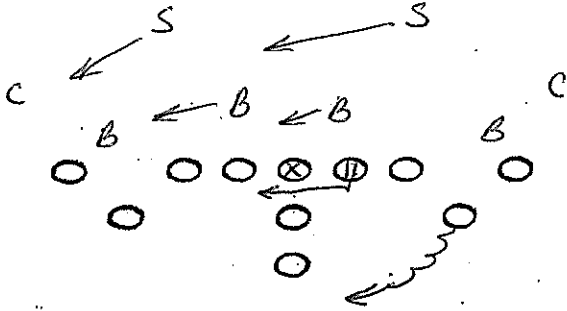

4. THE FB WILL STEP TO HIS NORMAL ASSIGNMENT "FILL FOR GUARD" ON BUCK, THEN HE SLIDE TO THE OUTSIDE AND LOOKS FOR FIRST DEFENSIVE THREAT. MOST LIKELY THE CORNER. RIGHT WING AND END MUST GET CROSS COURT BLOCK TOP OF STOVE PIPE.

2-BACK CARRY OUT GREAT FAKE!!

2-BUCK RIGHT TO PASS

OUTSIDE LINEBACKER READS MOTION HIS WAY. HIS KEY IS THE RIGHT WINGBACK. AS SOON AS WINGBACK DOWN BLOCK THEN OUTSIDE LB RUSHES HARD OFF EDGE TO BLOW UP

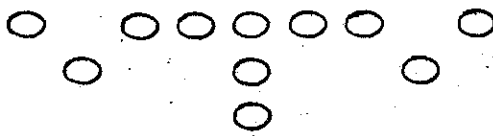

RUN PLAY IN BACKFIELD SAFETY ALSO READS THE FALSE KEY BY THE RIGHT WINGBACK AND ATTACKS RUN PLAY.

THE RIGHT WINGBACK MUST PUT HANDS ON DE TO SELL THE FALSE KEY

LEFT ^{END} LOOKS LIKE HE'S TRYING TO BLOCK CROSS COURT THEN STREAKS TO THE POST

THE INSIDE LB NOW HAS TO COVER THE FLAT BECAUSE OF THE BLITZ READ BY OLB. HARD TO READ RUN AND COVER PASS.
