

Drawing Media 2 Inspiration Photos
use your own camera or phone for originality
these can be printed in black and white to begin the semester

I am looking forward to working with you next year. Your talent and interest in art is a gift that will be fun for you to explore. For you to be successful in class you should remember that Drawing 2 is an **advanced level class** and students are required to be **highly self-motivated**. The projects are detailed and lengthy and there is **no time in class** to be searching for inspiration photos.

Specific due dates will be given and strictly observed. Generally, no late credit is given. To ensure that you will complete the assignments you must use class time for **drawing or art research only**.

Therefore, I require that you bring to class, on the first day, many examples of the following photos that may be useful in your work:

Choose 2 or 3 of the following themes and collect images that best illustrate them:

attention to detail	bent out of shape	full speed ahead
on the edge	shades of change	ups and downs
systems	layering	interactive

Human hands – in various poses (**we will use pencil**)

Something to hold –actual objects that you bring in– we will discuss this in class

People’s faces showing emotion – especially close-ups (**we will use pencil**)

People in various poses – extreme, athletic, resting (**we will use brush and ink**)

Anything that you see that looks interesting to you

All photos should be printed in **black and white**.

The projects may change slightly, but you should at least have a collection of these ideas. **Continue to collect source material all year.**

No collection on the first day?

Expect 1 point off the first project for each day it is missing. Missing for 13 days? The project grade would be 0.

Remember, in the interest of integrity and honesty, **your own photos** result in original artwork. Using a copyright free photo is sometimes necessary but the result is not truly your own.

Begin looking for these in June. Waiting until August 15 will be obvious to me and will affect your grade on each project.
